

Spring 2021 SCH Online Exchange Program

Exchange program had many limits due to COVID-19. We have been finding a way to overcome the limits and came up with Online Exchange Program to meet students' study abroad experience needs.

Following online program participating students will get the student ID as an exchange student at the SCH University just like the exchange students here in Korea. The only difference is that they will take classes from their home country. Students will take Korean Language online courses and will get the credit from the SCH University. Also, online exchange program students will receive their official transcript after the Spring 2021 semester.

We believe that this could be a great opportunity for students who are interested studying abroad to Korea. They can learn indirectly Korean culture and Korean without traveling to Korea during the pandemic.

We have organized the SCH Online Exchange Program considering the COVID-19 current situation. For this reason, not every students can be accepted for Spring 2021. Please check the details below and apply.

The Korean Language online courses aim to achieve TOPIK test score. Once we receive all the application form our partner universities, we will assign students to courses according to their Korean level.

Please let me know if you have any questions.
