# WHY

# SWJTU

Founded in 1896 as the “Imperial Chinese Railway College”, Southwest Jiaotong University (SWJTU) is one of the earliest institutions of higher engineering education in China. It has become known as “the cradle of railway engineers in China”.

Our growing scientific community attracts talents from all over the world and our students have opportunities to study, research, and work with outstanding and multidisciplinary teachers, alumni, and partners. Both rigorous and dynamic, the academic environment provides outstanding opportunities for the integration of theory and practice.

Our 27 academic schools (centers) are home to over 47,000 students. More than 500 of our students come from abroad, creating a beautiful multicultural and truly inspiring international atmosphere.

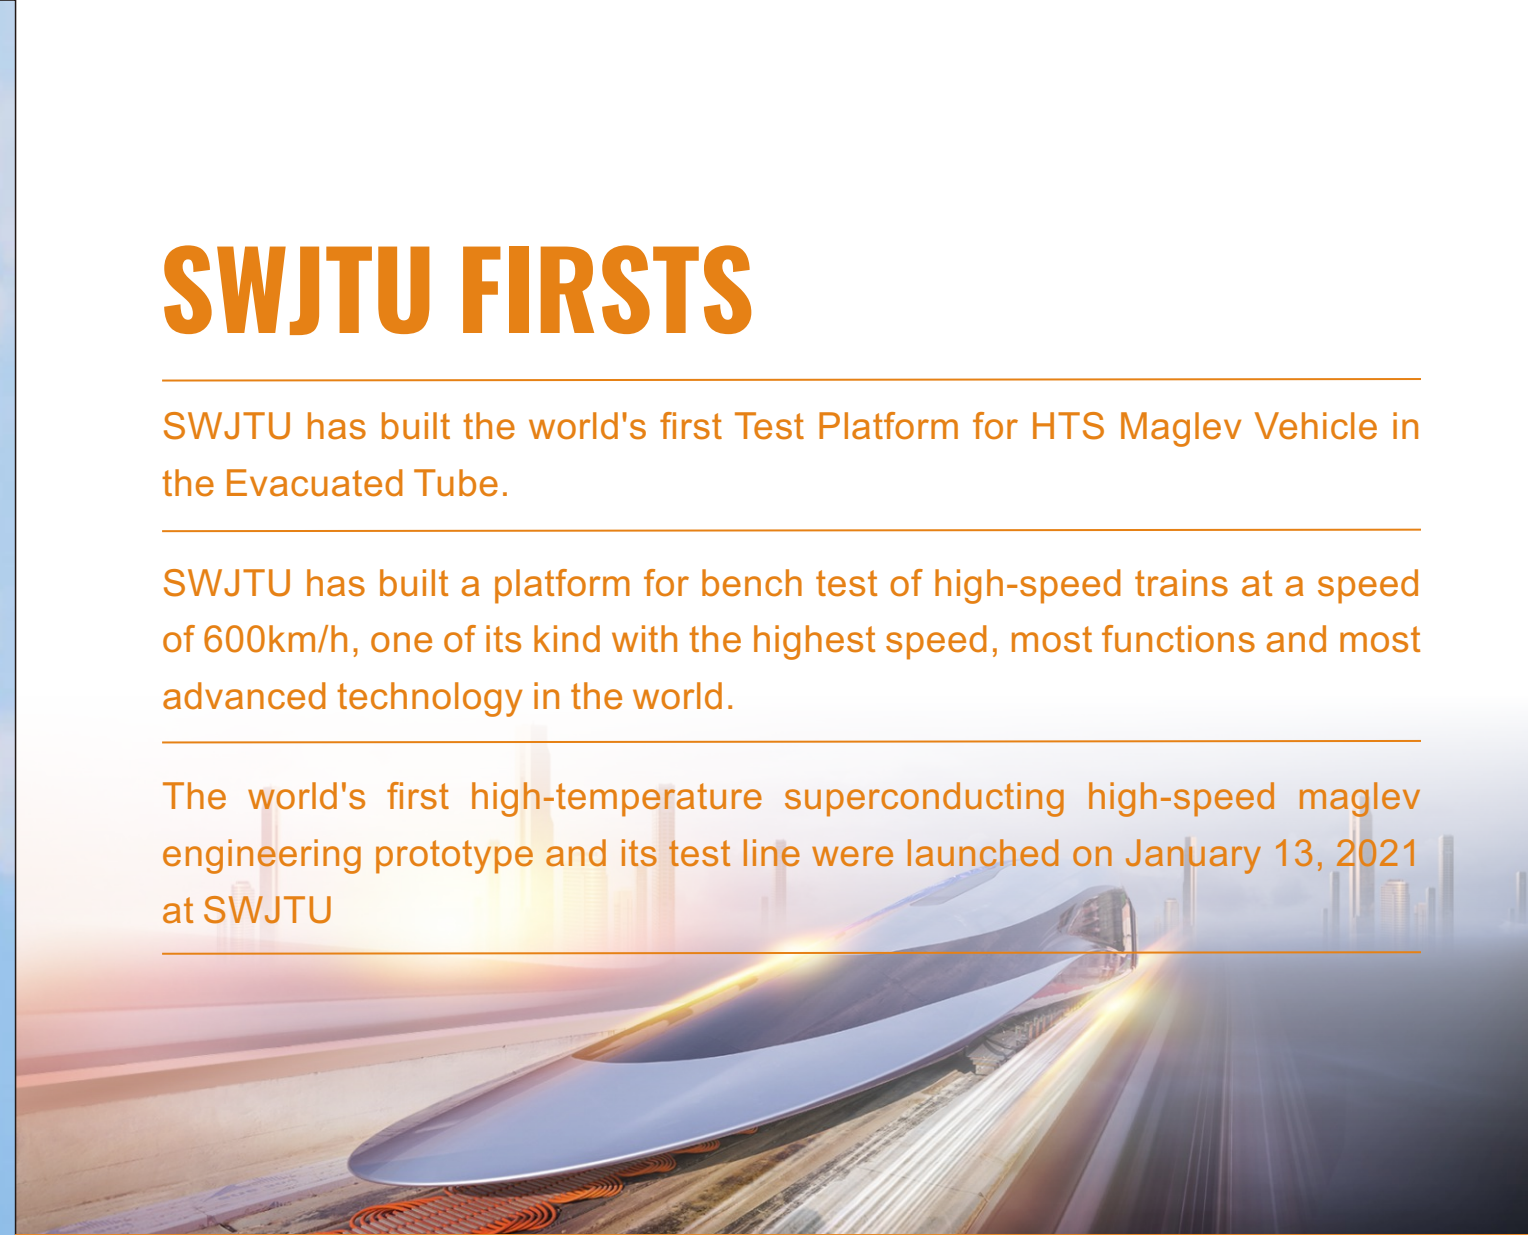

## SWJTU FIRSTS

SWJTU has built the world's first Test Platform for HTS Maglev Vehicle in the Evacuated Tube.

SWJTU has built a platform for bench test of high-speed trains at a speed of 600km/h, one of its kind with the highest speed, most functions and most advanced technology in the world.

The world's first high-temperature superconducting high-speed maglev engineering prototype and its test line were launched on January 13, 2021 at SWJTU
